PROSECUTOR HELD FOR WIFE MURDER

Grand Jury to Investigate the Case, Strained Domestic Relations Given as the Cause.

St. Joseph, Mo., Sept. 25.—A grand jury will be appointed immediately to hear the case of Oscar D. McDaniel, prosecuting attorney of Buchanan county, who was arrested last night on a warrant charging him with the murder of his wife last July, according to B. M. Lockwood, special prosecutor, who declares strained domestic relations led to the murder. When Mrs. McDaniel was killed last July McDaniel told a story of having been lured from his home to the business section of the city by a telephone message and that when he discovered the ruse he immediately returned home and on reaching the house discovered a man lurking in the rear of the residence. He says he exchanged shots with the intruder, who finally fled. Upon entering the house he said he found his wife dead in an upstairs bedroom with her skull crushed. McDaniel alleged the crime was the work of political enemies.

PAVING MATERIAL ARRIVING DAILY

Since Strike Order Was Called Off Movement of Material is Much Better Than Before.

Despite the fact that the big asphalt plant of the Kaw Paving Company has been removed to McKinney for a stay of three weeks, it seems to have little effect on the shipment of materials for paving work. There has been more material unloaded on the ground where the big plant is operated in the past few days than has ever been within the same length of time since the paving work started several weeks ago. This is due, according to the paving contractors, to the fact that since the strike has been ordered called off, it is no trouble to get the railroads to accept shipments for immediate delivery.

In the course of two or three weeks, or by the time the big asphalt plant is returned to Bryan, the base on the west side of College avenue will have been completed and the contractors will have enough material on hand to rush through with the top coating and the street will be opened for traffic all the way through. It is predicted by City Engineer A. S. Adams that the completion of this work and the completion of the Bryan end of the A. and M. College road will be about the same time and then the joy riders will be turned loose on a good long stretch of road at the same time.
